

New Patient Referral Network for Sleep/Sedation Dentists

We can help your practice grow through performance-based online marketing...

Step 1

You create an account for exclusive use of one of our highly trafficked websites.

Step 2

Patients search for your services, visit the site, and are presold about your practice.

Step 3

Patients contact you directly via a special, trackable phone number, or by email.

Step 4

Your office staff book appointments for the patients we have referred.

I already advertise online. Why should I sign up with you?

- We provide additional online exposure for your practice.
- We advertise in ways that might not occur to you.
- We target local patients who are looking for your exact services.
- Pay for performance - if no leads, you don't pay.
- We only provide exclusive leads to you - no competition.
- You only pay when we actually deliver a lead to you.
- All lead calls are recorded, emails saved for you to verify.
- **No contract, no hidden fees, cancel any time.**
